Commissioner for Patents  
Washington DC

Sir:

The application is being prosecuted by the Applicant pro se

15

**Remarks****Request for Constructive Assistance:**

The pro se applicant requests under M.P.E.P. § 2173.02 and §707.07(j) that the examiner should draft one or more claims for the applicant and indicate in his or her action that such claims would be allowed if incorporated in the application by amendment.

20

As discussed in the interview Tuesday, May 09, 2006, and in the summary letter sent on that date; being that the examiner finds that the application discloses patentable subject matter vis-à-vis Amerson et al. and it is apparent from the claims and applicant's arguments that the claims are intended to be directed to such patentable subject matter, but the claims in their present form cannot be allowed because of defects in form or omission of a limitation, it was agreed that the applicant request the help of the examiner under M.P.E.P. §707.07(j) and per M.P.E.P. § 2173.02.

25

As stated in § 2173.02 the applicant requests that "the examiner should not stop with a bare objection or rejection of the claims" as in the OA of March 16, 2006. "The examiner's action should be constructive in nature and, when possible, should offer a

definite suggestion for correction". If needed the applicant requests that "the examiner should draft claims for the applicant and indicate in his or her action that such claims would be allowed if incorporated in the application by amendment".

This request is in order that the undersigned can place this application in allowable condition as soon as possible and without the need for further proceedings.

I would recommend that a teleconference between yourself, your supervisor Sandra L O'shea and myself be arranged at the earliest possible date to facilitate the constructive assistance process. My email address is included as usual so that you can contact me without difficulty.
